FINANCIAL REVIEW

We are pleased to present the summary of the audited financial results of the Group for the year ended 31 December 2025.

Economic highlights

The domestic economy is estimated to have grown by 2.7% in 2025 (2024: 1.7%); the improvement being attributed to a relatively better 2024/25 agricultural season, the scaling up of infrastructure projects in the construction sector, and investments in the key growth sectors of agriculture, tourism, mining and manufacturing. Headline inflation decreased to an average of 28.4% in 2025 (2024: 32.2%), mainly due to food inflation which dropped to 33.2% from 40.2%. Notwithstanding the slight drop in non-food inflation to 20.7% from 21.2%, foreign exchange scarcity and fuel

Standard Bank PLC

RESULTS FOR THE YEAR ENDED

31 DECEMBER 2025

AUDITED SUMMARY CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS

Credit impairment charges were 2% lower than the prior year, primarily due to impairment releases arising from financial investments nearing maturity, resulting in the roll off of previously recognised expected credit losses. These releases were partially offset by higher impairment charges associated with growth in the customer loan book and updates to forward-looking credit assumptions. The Group continues to apply prudent risk management and responsible lending practices.

Operating expenses increased by 33% year-on-year, reflecting inflationary pressures and foreign exchange impacts. Despite this increase, strong revenue growth and disciplined cost management improved the cost-to-income ratio to 35%, from 37% in the prior year, demonstrating enhanced operating efficiency.

Earnings per share rose from a rebased value of MK73.63 in 2024 to MK103.75 in 2025.

Outlook

Economic headwinds will more likely moderate this year, as a favourable agricultural output is expected to lower food prices and headline inflation. The downside could be inflationary pressures from a weak currency, high fuel and utility prices, while efforts to contain public spending work on the upside. Economic outcomes in 2026, especially related to foreign exchange supply and budgetary operations, would also be impacted by decisions made by the country's external development partners. For the country to get on a more sustainable growth trajectory, export-led industrialisation in the chosen sectors - agriculture, tourism, mining and manufacturing, remains critical.

Basis of preparation

The summary consolidated and separate financial statements are prepared to meet the requirements of the Financial Services Act, 2010 of Malawi for summarised financial statements, and to comply with the Malawi Stock Exchange Listing Requirements, which require a listed entity to publish audited results. The summarised consolidated and separate financial statements have been prepared in accordance with the framework concepts and the measurement and recognition requirements of IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB). The accounting policies applied in the preparation of the consolidated and separate financial statements from which the summary consolidated and separate financial statements were derived are in terms of IFRS Standards, the IAS 29 Directive issued by the Institute of Chartered Accountants in Malawi (ICAM), and are consistent with the accounting policies applied in the preparation of the previous consolidated and separate financial statements.

Dividend

The directors resolved to pay an interim dividend of **MK16.7 billion**, representing **MK14.23** per share, in respect of the year ended 31 December 2025. The directors will continue to assess the prevailing economic and financial sector conditions for future dividend decisions.

For the year ended 31 December 2024, a first interim dividend of MK5.0 billion, representing MK4.26 per ordinary share, was paid in February 2025. A second interim dividend of MK16.5 billion, representing MK14.06 per ordinary share, was paid in April 2025, while a final dividend of MK16.5 billion, representing MK14.06 per ordinary share, was paid in July 2025.

Following the share split effected during the year, dividend per share amounts for the comparative period have been adjusted retrospectively, while the total dividend amounts remain unchanged.
